Designed For Strength & Comfort.

Webbed straps and self-locking buckles are tough, durable, and provide a firm footing, while maintaining all-day comfort.

Engineered For Safety & Simplicity.

Strut brace holds strut securely in place, and allows quick and easy height adjustment.

Reinforced For Security & Stability.

Tapered strut anchors lock the joint firmly in place, maximizing stability and safety.

Built To Last.

High density rubber soles with steel connection points and heavy duty tread resist wear and tear, and improve traction.

Replacement Parts Available For All Models.
